**CATALOGO GENERALE**

**MAIN CATALOGUE**

**2011**

---

Il contenuto del presente catalogo può essere oggetto di variazioni o modifiche che la Slanzi Oleodinamica si riserva di apportare senza alcun obbligo di informazione.

I prodotti presentati, così come i dati tecnici e le specifiche tecniche, devono essere esaminati e controllati, in relazione all'uso a cui il prodotto è destinato, da personale competente con adeguate conoscenze tecniche.

Occorre valutare le condizioni di funzionamento di ciascun prodotto in relazione all'applicazione che dello stesso si intende fare ed assicurarsi che durante l'utilizzo, tutte le condizioni relative alla sicurezza delle persone e/o delle cose siano rispettate.

*The content of this catalogue can be subject to variations or modifications that Slanzi Oleodinamica has the right to make without any obligation of notification.*

*The presented products, as well as the technical data and technical specifications, must be examined and checked by competent staff with adequate technical knowledge, in relation to the use to which the product is destined.*

*It is necessary to consider the working condition of every product in relation to the application for which it is used, making sure during the use, to respect all the conditions related to the safety of persons and/or things.*

## NORME GENERALI GENERAL CONDITION

### ORDINAZIONI

- 1) Gli ordini devono pervenire alla Slanzi Oleodinamica S.r.l.  
Sempre in forma scritta e devono riportare: l'esatta ragione sociale, l'indirizzo dell'ordinante, numero d'ordine, data di emissione, riferimento eventuale offerta Slanzi Oleodinamica S.r.l., denominazione scrupolosa del o degli articoli ordinati, data di consegna richiesta, destinazione del materiale e vettore.
- 2) La Slanzi Oleodinamica S.r.l. si riserva la facoltà di eventualmente adeguare o di respingere l'ordinazione in forma scritta entro sette giorni del ricevimento.
- 3) Non sono da ritenersi impegnativi eventuali accordi verbali o scritti di qualsiasi genere presi dai nostri dipendenti o da agenti con il committente, se non sono seguiti da conferma scritta della Slanzi Oleodinamica S.r.l.

### GARANZIA ED AVVERTENZE

- 1) La Slanzi Oleodinamica S.r.l. garantisce che i propri prodotti sono esenti da difetti di materiali o di costruzione, per un periodo di 12 mesi a decorrere dal giorno di spedizione dalla propria sede. La garanzia consiste nella riparazione o sostituzione, previo esame presso la sede della Slanzi Oleodinamica S.r.l. dei prodotti o parti degli stessi inutilizzabili, per accertato difetto del materiale o di costruzione. Gli eventuali reclami dovranno pervenire in forma scritta presso la nostra sede.
- La Slanzi Oleodinamica S.r.l. si riserva il diritto di autorizzare la restituzione del materiale contestato; difetti di fabbrica visibili alla consegna dovranno essere segnalati in forma scritta entro 48 ore dal ricevimento della merce. Il prodotto si intende reso franco destino ad accertamento delle cause di necessaria riparazione o sostituzione.
- 2) Sono esclusi da garanzia i componenti del prodotto soggetti a più facile usura come ad esempio: molle, o-rings, guarnizioni in genere, ecc...
- 3) La garanzia non ha validità per i prodotti utilizzati ed installati in modo improprio, negligente per qualunque manomissione o per danni causati agli stessi dalle attrezzature utilizzatrici, in particolare modo la Slanzi Oleodinamica S.r.l. è esonerata da ogni obbligo per qualsiasi danno a persone o cose che possono verificarsi per o durante l'uso dei propri prodotti per causa od in dipendenza a quanto sopra.
- 4) La Slanzi Oleodinamica S.r.l. non risponde di eventuali danni causati al prodotto avvenuti durante il trasporto o la consegna, salvo preventivo accordo.
- 5) I componenti illustrati nel catalogo, sono concepiti per gestire la movimentazione del flusso di olio idraulico a base minerale, all'interno di appositi circuiti. La Slanzi Oleodinamica S.r.l. non risponde per alcun danno né a persone né a cose, imputabile ai propri prodotti per utilizzi e prestazioni diversi da quelli indicati e raccomandati sul proprio catalogo; utilizzi diversi devono essere esplicitamente autorizzati in forma scritta dalla Slanzi Oleodinamica S.r.l..
- 6) Tutti i prodotti Slanzi Oleodinamica S.r.l. devono essere preventivamente collaudati dal costruttore dell'impianto alle condizioni limite di funzionamento prima dell'utilizzo operativo dell'impianto stesso.
- 7) Essendo i prodotti Slanzi Oleodinamica S.r.l. realizzati con più meccanismi metallici di alta precisione d'accoppiamento, assemblati tra loro, ma con assoluto obbligo di restare tra loro indipendenti, per necessità funzionale di movimenti come scorrimento, rotazione, ecc., per di più corredate da guarnizioni di varie forme e mescole allo scopo di garantire la perfetta ermeticità, ne sconsigliamo i lunghi periodi di inutilizzo, per il rischio di bloccaggio od incollaggio tra i vari componenti e del deperimento per inattività delle guarnizioni. In ragione di quanto detto sopra, la Slanzi Oleodinamica S.r.l. è sollevata da ogni responsabilità per qualsiasi danno causato dai propri prodotti non installati o comunque non utilizzati seppur installati su qualsiasi impianto entro 12 mesi dalla consegna. Tale clausola è estesa anche a quei prodotti che seppur utilizzati nel periodo di validità della garanzia, osservino nel corso della loro vita logico-operativa, altri periodi di inattività superiori a 6 mesi, per evitare i suddetti possibili inconvenienti; ne consigliamo la necessità di rendere tali prodotti alla Slanzi Oleodinamica S.r.l. a spese dell'acquirente per revisione.
- 8) La responsabilità finale della scelta e dell'utilizzo dei prodotti Slanzi Oleodinamica S.r.l., sono a carico dell'acquirente anche se suggeriti dalla organizzazione commerciale o tecnica della Slanzi Oleodinamica S.r.l., dal momento che le reali esigenze e condizioni di funzionamento delle apparecchiature dell'acquirente non sono integralmente riproducibili nei laboratori prova e collaudo della Slanzi Oleodinamica S.r.l..

### GIURISDIZIONE

In caso di contestazione in cui la SLANZI OLEODINAMICA S.r.l. sia convenuta è esclusivamente competente il foro di Reggio Emilia.

### ORDERS

- 1) Orders should always be placed with Slanzi Oleodinamica S.r.l. in writing: Orders should contain: full name and address of the customer, order number, date of issue, reference number of any Slanzi Oleodinamica S.r.l. quotation received, exact name of the item or items ordered, delivery date requested, destination of material and carrier.
- 2) Slanzi Oleodinamica S.r.l. reserves the right to alter if necessary or decline an order, subject to supplying written notice within 7 days of receipt of same.
- 3) Any form of written or verbal agreement entered into with the customer by our employees or agents shall not be considered binding unless followed by written confirmation of same on the part of Slanzi Oleodinamica S.r.l.

### WARRANTY AND DIRECTIONS

- 1) Slanzi Oleodinamica S.r.l. guarantees its products free from material manufacturing defects for a period of 12 months with effect from date of shipment from its premises. The warranty covers repair and or replacement of product or parts of same that have proved to be unserviceable due to material or manufacturing defects following inspection at the premises of Slanzi Oleodinamica S.r.l..  
All claims should be forwarded in writing to our promises. Slanzi Oleodinamica S.r.l. reserves the right to authorise the return of the material that is the subject of complaint. Manufacturing defects apparent at the time of delivery should be reported in writing within 48 hours of receipt. The product is intended as being delivered free to consignee for investigation into the reasons as to the required repair or replacement.
- 2) Those components pf the product subject to normal war and tear are not covered by the terms of the warranty; e.g. springs, o-rings, gasket, etc.
- 3) The warranty does not cover products assembled in an improper or negligent manner, any kind of tampering or damage caused to same by other user equipment. In particular, Slanzi Oleodinamica S.r.l. is relieved of all liability for damages to persons or object caused during or as a result of the improper use of its products as outlined above.
- 4) Unless otherwise agreed in advance, Slanzi Oleodinamica S.r.l. will accept no liability for damages to the product arising during shipment or delivery.
- 5) The components illustrated in the catalogue are designed to handle the flow of mineral-based hydraulic oil within special circuits. Slanzi Oleodinamica S.r.l. accepts no liability for damages to persons or objects as a result its products being put to uses or working conditions inconsistent with those indicated and recommended in its catalogue. Different uses are subject to the advance written authorisation of Slanzi Oleodinamica S.r.l.
- 6) All Slanzi Oleodinamica S.r.l. products must be tested and approved by the system manufacturer under maximum rated operating conditions before which system is brought into service.
- 7) Slanzi Oleodinamica S.r.l. products consist of an assembly of various high-precision metal coupling components. Whilst connected between them. It is essential that they remain independent from each other in order to carry out movements such as: sliding, rotation, etc. In addition, they are fitted with gaskets of various shape and composition. In order to ensure complete tightness, we do not recommend that the system be taken out of service for long periods so as to reduce a risk of seizure or jamming of various components or perishing of gaskets caused by lack of use. As regards such conditions and recommendations, Slanzi Oleodinamica S.r.l. declines all liability arising from damages caused by its products that are not installed or are installed but not utilised in any system within 12 months of delivery. Such clause also refers to those products that whilst utilised within the term covered by tile warranty, are subjected during the course of their normal working life to other periods of inactivity exceeding 6 months. In order to prevent the occurrence of such problems, we recommend that said products be returned to Slanzi Oleodinamica S.r.l. for an overhaul at the customer's expense.
- 8) The ultimate responsibility for the choice and use of Slanzi Oleodinamica S.r.l. products rests with the purchaser even if acting upon suggestions received from the Slanzi Oleodinamica S.r.l. sales or engineering departments. It should be cleared that the actual needs and operating conditions of the purchaser's equipment cannot be simulated in an identical manner within the Slanzi Oleodinamica S.r.l. test laboratories.

### JURISDICTION

Sole jurisdiction for the settlement of any disputes involving SLANZI OLEODINAMICA S.r.l. lies with the Law Court of Reggio Emilia, Italy.

► PER TUTTE LE VALVOLE / FOR ALL VALVES

• Filtrazione / <i>Filtering</i> :	25 micron
• Grado di contaminazione olio del circuito : <i>Level of contamination of the oil in the circuit :</i>	(ISO 4406) 18/15 - NAS 1636 CLASS 9
• Guarnizioni / <i>Seals</i> :	Nitrile NBR Std. per temperature comprese tra -20 °C e +100 °C. A richiesta sono disponibili in Viton e in altre mescole Nitrile NBR Std for temperatures between -20°C and +100°C. Upon request they are available in Viton and other compounds

## COME ORDINARE HOW TO ORDER

Per ordinare i nostri prodotti è sufficiente comporre il codice nel seguente modo :

- Esempio di ordinazione di un'elettrovalvola 7/8 - 14 UNF con bobina DIN 43650 e comando manuale a pulsante

*To order our products it is sufficient to compose the code in the following way :*

- *Example of order of an electrovalve 7/8 - 14 UNF with coil DIN 43650 and push button manual control*

**IMPORTANTE :** il codice dell'elettrovalvola completa dipende dalla scelta del tipo di bobina e accessori a richiesta. Tutte le elettrovalvole possono essere personalizzate secondo le esigenze del cliente

**IMPORTANT :** the complete electrovalves code depends on the choice of the coil and the accessories upon request. All electrovalves can be custom-made based on the needs of the customer

A solenoid-operated, 2-way, normally closed, piloted poppet-type hydraulic cartridge valve, designed to function in applications requiring low internal leakage

• Cavità • Cavity	C 3416- 2 S
• Pressione max. • Max. Op. pressure	310 bar
• Portata Nominale • Nominal Range	35 l/min
• Trafiletto interno • Internal Leakage	1 cm <sup>3</sup> /min alla max. pressione di esercizio con olio 46 cSt 1 cm <sup>3</sup> /min at maximum operating pressure with 46 cSt oil
• Comandi manuali • Manual controls	EV3 - EV4 - EB1
• Bobine • Coils	Cap. 3

## NORMALMENTE CHIUSA, BIDIREZIONALE A TENUTA

## NORMALLY CLOSED, BIDIRECTIONAL, POPPET-TYPE

► COD. EVM22 B2

► GRANDEZZA / SIZE 09

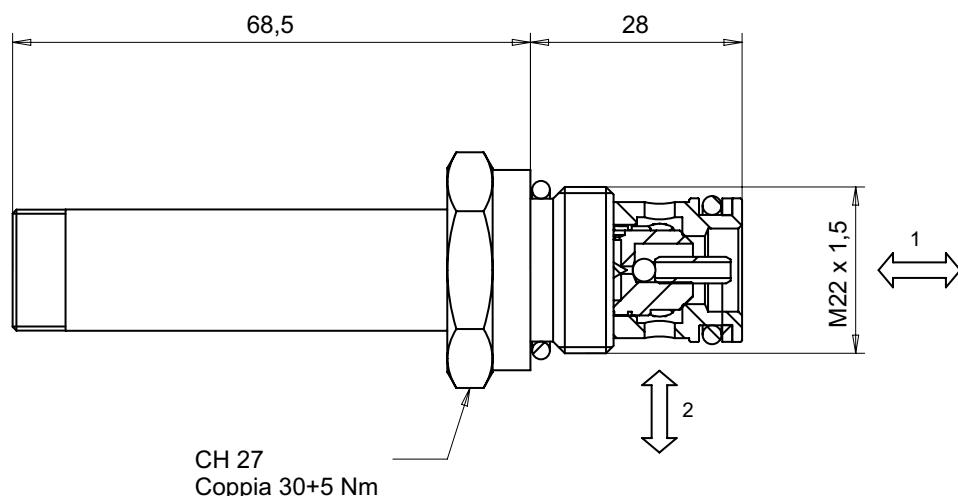

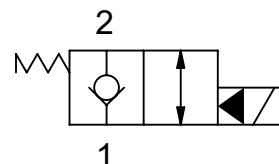

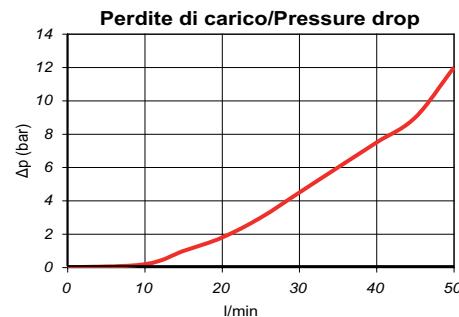

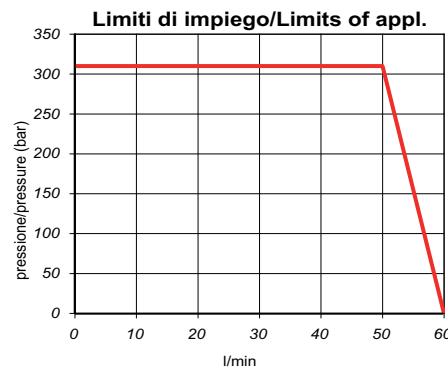

1

Valvola ad azionamento elettrico a 2 vie a tenuta pilotata normalmente chiusa a cartuccia per applicazioni in cui si richiede un bassissimo trafiletto interno

A solenoid-operated, 2-way, normally closed, piloted poppet-type hydraulic cartridge valve, designed to function in applications requiring low internal leakage

1.a

• Cavità Cavity	<b>C 2215- 2</b>
• Pressione max. Max. Op. pressure	<b>310 bar</b>
• Portata Nominale Nominal Range	<b>50 l/min</b>
• Trafiletto interno Internal Leakage	<b>1 cm<sup>3</sup>/min alla max. pressione di esercizio con olio 46 cSt</b> <b>1 cm<sup>3</sup>/min at maximum operating pressure with 46 cSt oil</b>
• Comandi manuali Manual controls	<b>EV3 - EV4 - EB1</b>
• Bobine Coils	<b>Cap. 3</b>

## NORMALMENTE CHIUSA, BIDIREZIONALE A TENUTA

## NORMALLY CLOSED, BIDIRECTIONAL, POPPET-TYPE

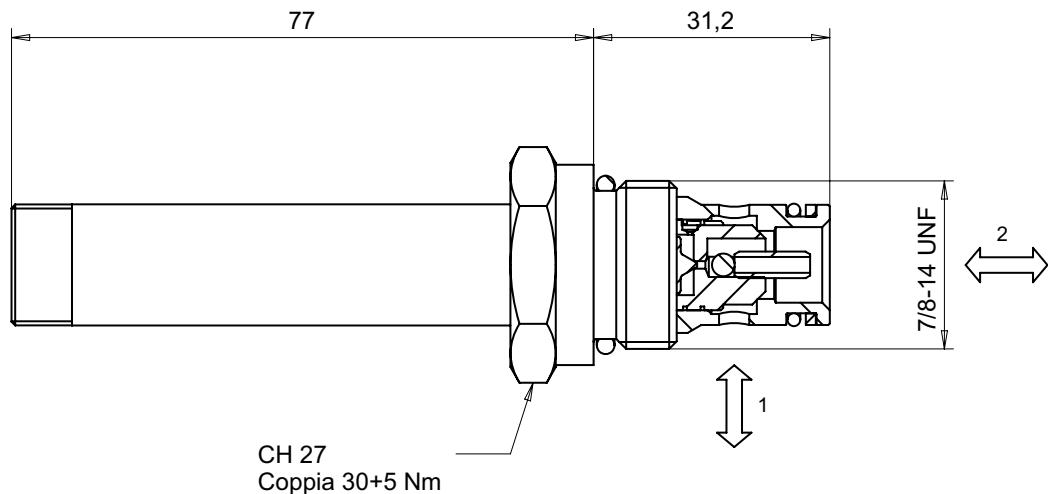

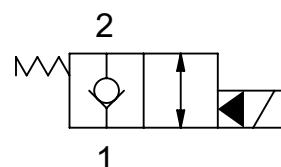

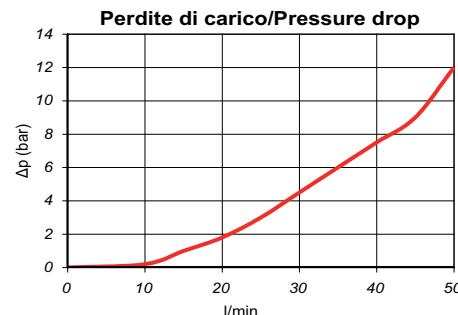

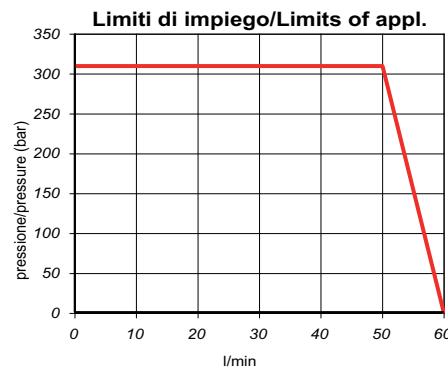

► COD. **EV7/8 B2**

► GRANDEZZA / SIZE **09**

Valvola ad azionamento elettrico a 2 vie a tenuta pilotata normalmente chiusa a cartuccia per applicazioni in cui si richiede un bassissimo trafiletto interno

A solenoid-operated, 2-way, normally closed, piloted poppet-type hydraulic cartridge valve, designed to function in applications requiring low internal leakage

• Cavità • Cavity	<b>C 7814- 2</b>
• Pressione max. • Max. Op. pressure	<b>310 bar</b>
• Portata Nominale • Nominal Range	<b>50 l/min</b>
• Trafiletto interno • Internal Leakage	<b>1 cm<sup>3</sup>/min alla max. pressione di esercizio con olio 46 cSt</b> <b>1 cm<sup>3</sup>/min at maximum operating pressure with 46 cSt oil</b>

• Comandi manuali <i>Manual controls</i>	<b>EV3</b>
• Bobine <i>Coils</i>	<b>Cap. 3</b>

## 4 VIE 2 POSIZIONI 4-WAY, 2-POSITION

Valvola ad azionamento elettrico a 4 vie 2 posizioni a cursore diretto a cartuccia

A solenoid-operated, 4-way, 2-position, direct-acting, spool-type hydraulic cartridge valve

► COD. **EVM18 42F1**

► GRANDEZZA / SIZE **06**

• Cavità • Cavity	<b>C 1815- 4</b>
• Pressione max. • Max. Op. pressure	<b>220 bar</b>
• Portata Nominale • Nominal Range	<b>12 l/min</b>
• Trafilamento interno • Internal Leakage	<b>Max. 40 cm<sup>3</sup>/min a 210 bar con Oil 46 cSt</b>
• Comandi manuali • Manual controls	<b>EV3 - EV4 - EB1</b>
• Bobine • Coils	<b>Cap. 3</b>

## 4 VIE 2 POSIZIONI 4-WAY, 2-POSITION

Valvola ad azionamento elettrico a 4 vie 2 posizioni a cursore diretto a cartuccia

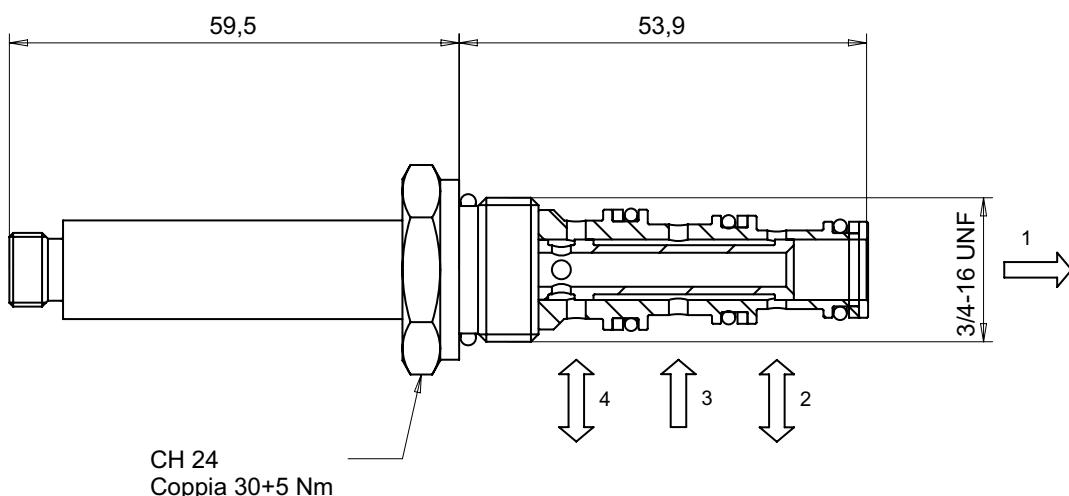

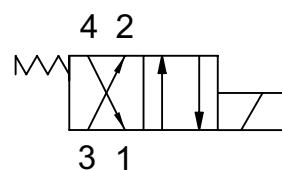

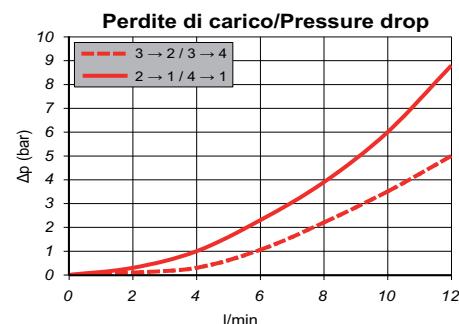

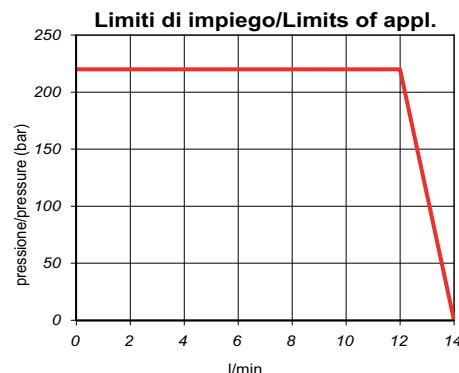

A solenoid-operated, 4-way, 2-position, direct-acting, spool-type hydraulic cartridge valve

► COD. **EV3/4 42F1**

► GRANDEZZA / SIZE **06**

**1**

• Cavità <i>Cavity</i>	<b>C 3416- 4</b>
• Pressione max. <i>Max. Op. pressure</i>	<b>220 bar</b>
• Portata Nominale <i>Nominal Range</i>	<b>12 l/min</b>
• Trafilamento interno <i>Internal Leakage</i>	<b>Max. 40 cm<sup>3</sup>/min a 210 bar con Oil 46 cSt</b>
• Comandi manuali <i>Manual controls</i>	<b>EV3 - EV4 - EB1</b>
• Bobine <i>Coils</i>	<b>Cap. 3</b>

## 4 VIE 2 POSIZIONI 4-WAY, 2-POSITION

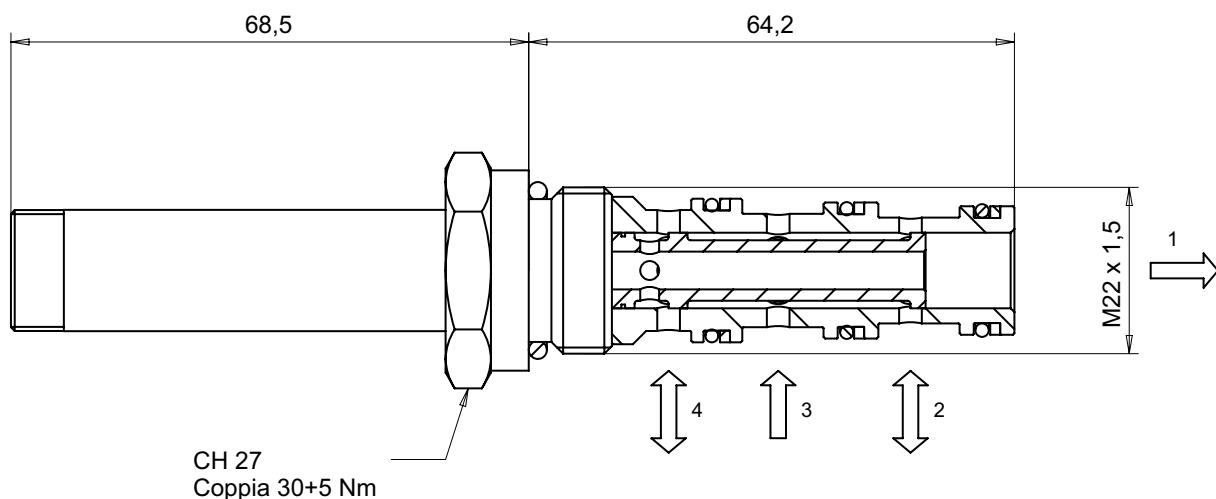

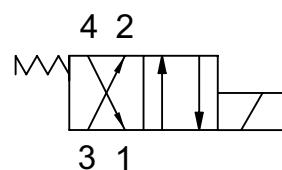

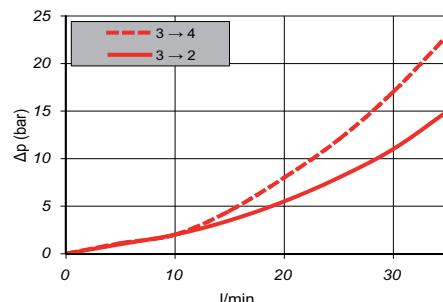

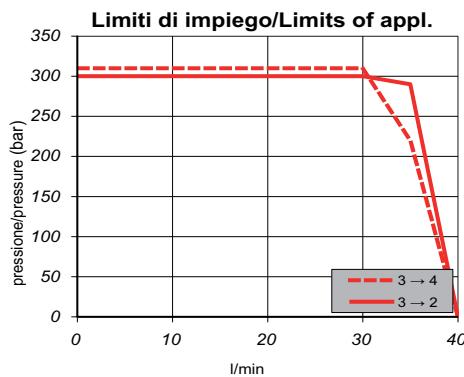

Valvola ad azionamento elettrico a 4 vie 2 posizioni a cursore diretto a cartuccia

A solenoid-operated, 4-way, 2-position, direct-acting, spool-type hydraulic cartridge valve

► COD. **EVM22 42F1**

► GRANDEZZA / SIZE **09**

• Cavità • Cavity	<b>C 2215- 4</b>
• Pressione max. • Max. Op. pressure	<b>220 bar</b>
• Portata Nominale • Nominal Range	<b>35 l/min</b>
• Trafilamento interno • Internal Leakage	<b>Max. 50 cm<sup>3</sup>/min a 210 bar con Oil 46 cSt</b>
• Comandi manuali • Manual controls	<b>EV3 - EV4 - EB1</b>
• Bobine • Coils	<b>Cap. 3</b>

## 4 VIE 2 POSIZIONI 4-WAY, 2-POSITION

Valvola ad azionamento elettrico a 4 vie 2 posizioni a cursore diretto a cartuccia

A solenoid-operated, 4-way, 2-position, direct-acting, spool-type hydraulic cartridge valve

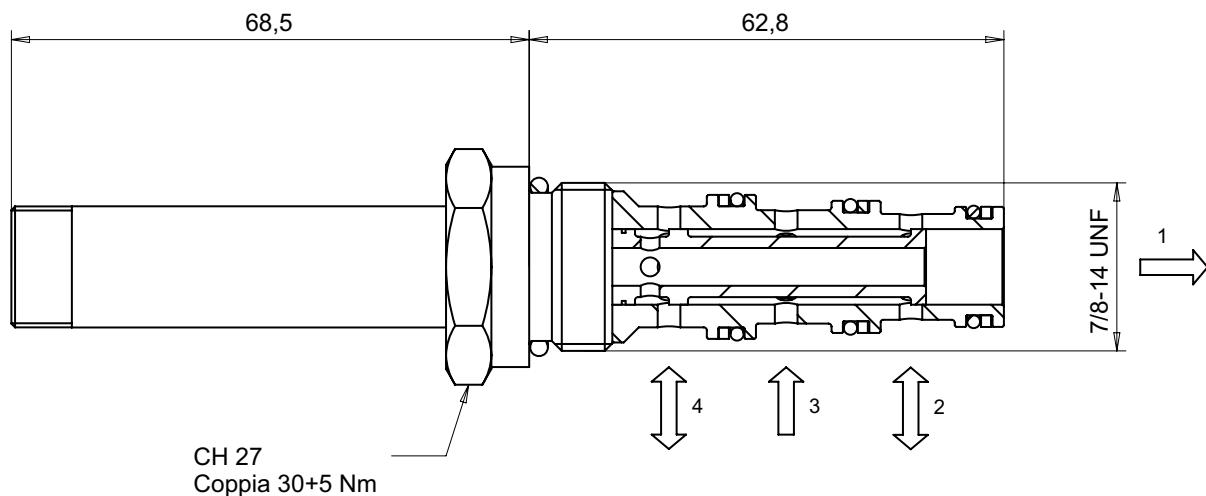

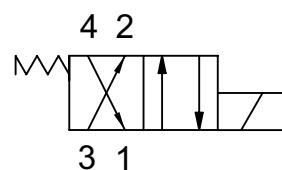

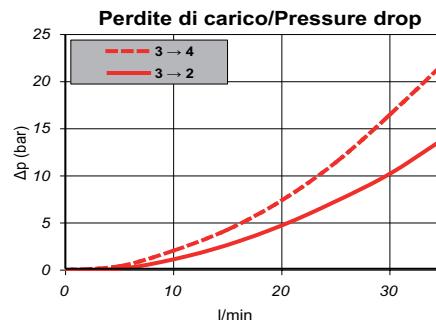

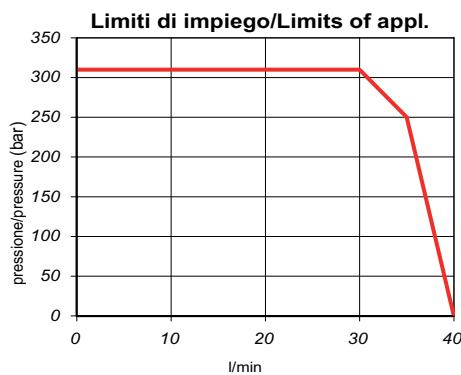

► COD. **EV7/8 42F1**

► GRANDEZZA / SIZE **09**

**1**

**1.a**

• Cavità • Cavity	<b>C 7814- 4</b>
• Pressione max. • Max. Op. pressure	<b>220 bar</b>
• Portata Nominale • Nominal Range	<b>35 l/min</b>
• Trafilamento interno • Internal Leakage	<b>Max. 50 cm<sup>3</sup>/min a 210 bar con Oil 46 cSt</b>
• Comandi manuali • Manual controls	<b>EV3 - EV4 - EB1</b>
• Bobine • Coils	<b>Cap. 3</b>

**4 VIE 2 POSIZIONI**  
**4-WAY, 2-POSITION**

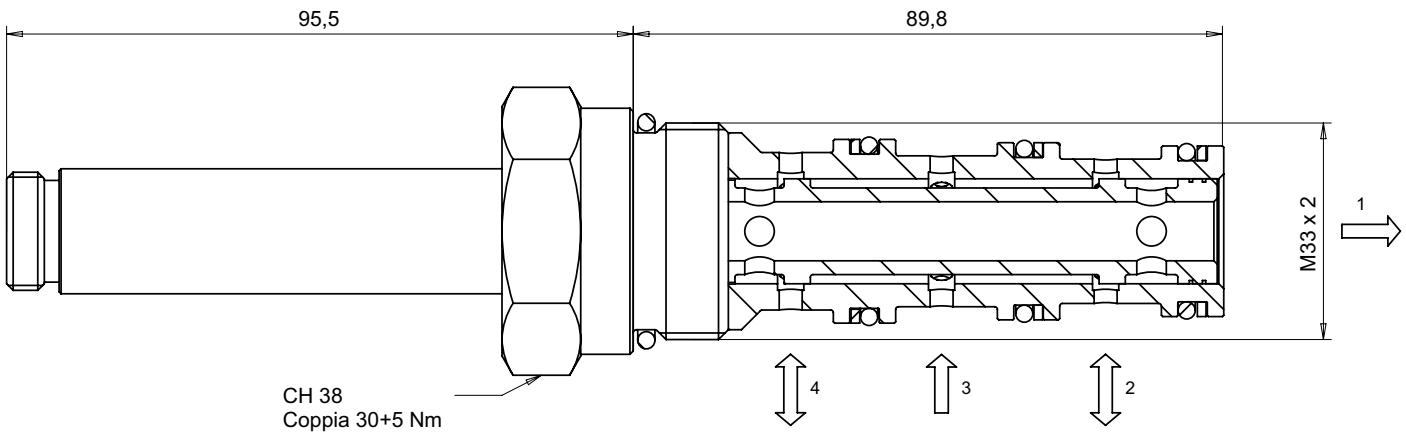

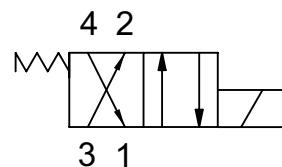

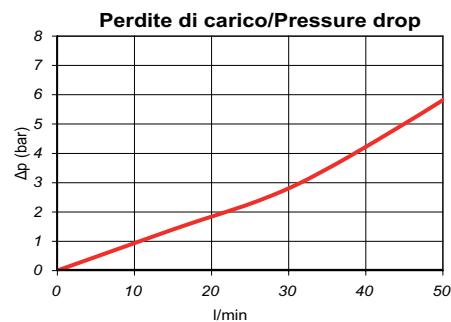

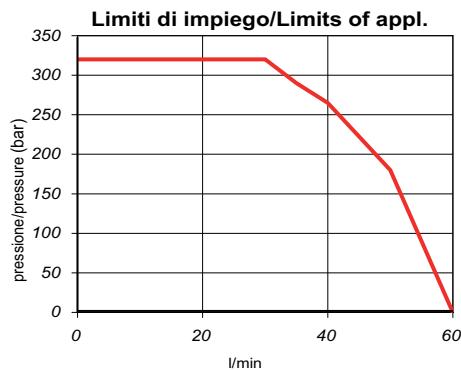

Valvola ad azionamento elettrico a 4 vie 2 posizioni a cursore diretto a cartuccia

A solenoid-operated, 4-way, 2-position, direct-acting, spool-type hydraulic cartridge valve

► COD. **EVM33 42F1**

► GRANDEZZA / SIZE **12**

• Cavità • Cavity	<b>C 332- 4</b>
• Pressione max. • Max. Op. pressure	<b>220 bar</b>
• Portata Nominale • Nominal Range	<b>50 l/min</b>
• Trafilamento interno • Internal Leakage	<b>Max. 40 cm<sup>3</sup>/min a 210 bar con Oil 46 cSt</b>
• Comandi manuali • Manual controls	<b>EV3 - EV4 - EB1</b>
• Bobine • Coils	<b>Cap. 3</b>

## 4 VIE 2 POSIZIONI 4-WAY, 2-POSITION

Valvola ad azionamento elettrico a 4 vie 2 posizioni a cursore diretto a cartuccia

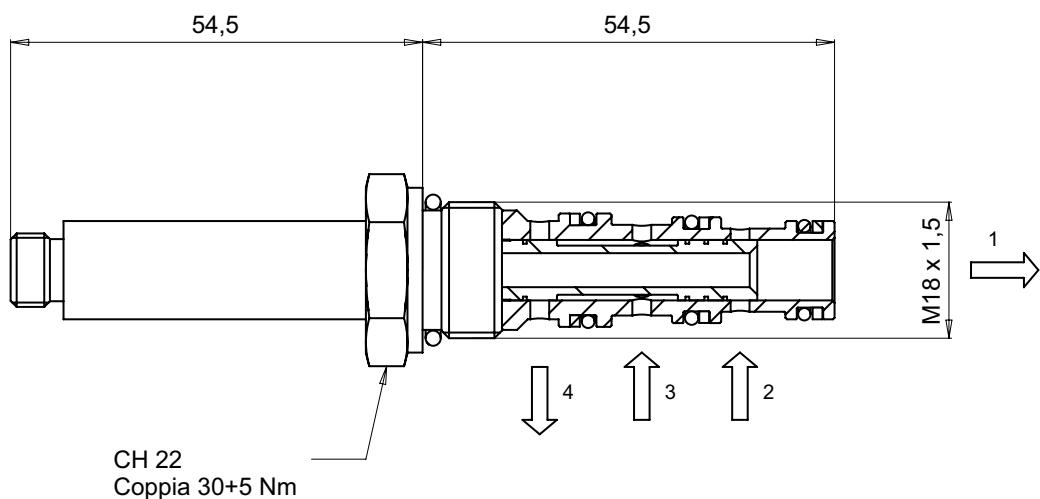

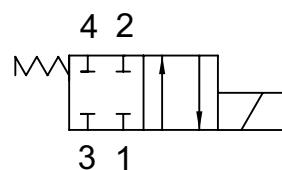

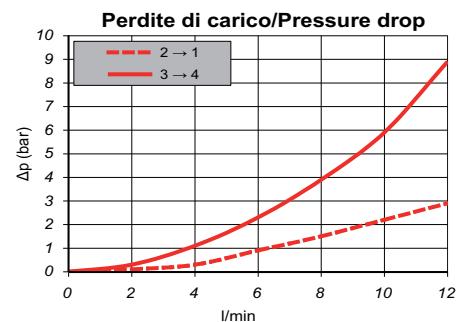

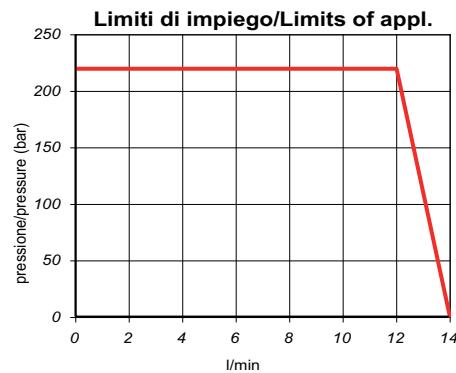

A solenoid-operated, 4-way, 2-position, direct-acting, spool-type hydraulic cartridge valve

► COD. **EVM18 42F2**

► GRANDEZZA / SIZE **06**

**1**

• Cavità • Cavity	<b>C 7814- 4</b>
• Pressione max. • Max. Op. pressure	<b>220 bar</b>
• Portata Nominale • Nominal Range	<b>12 l/min</b>
• Trafilamento interno • Internal Leakage	<b>Max. 40 cm<sup>3</sup>/min a 210 bar con Oil 46 cSt</b>
• Comandi manuali • Manual controls	<b>EV3 - EV4 - EB1</b>
• Bobine • Coils	<b>Cap. 3</b>

**1.a**

## 4 VIE 2 POSIZIONI 4-WAY, 2-POSITION

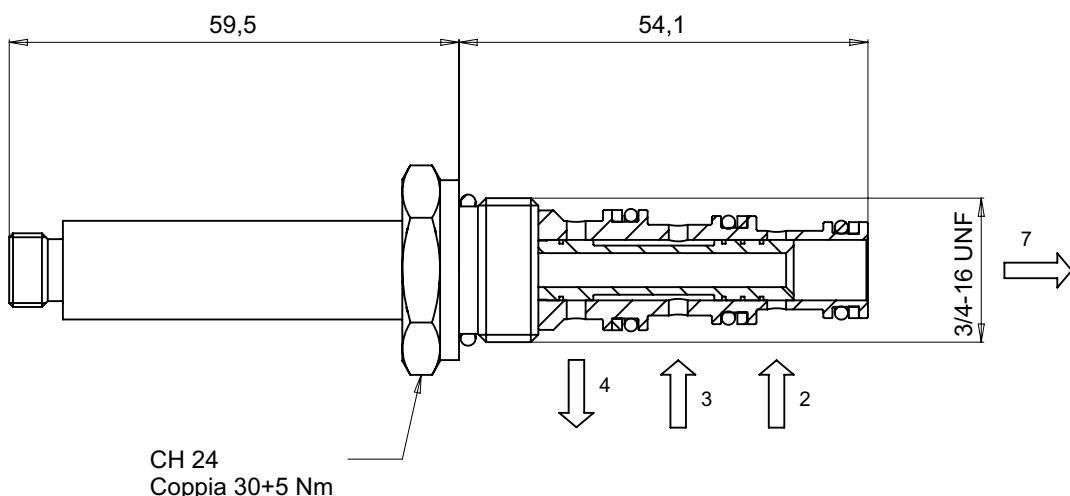

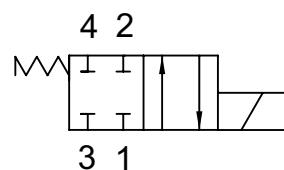

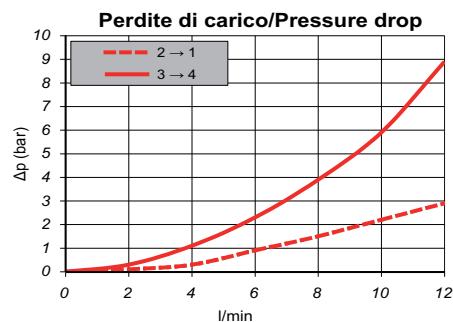

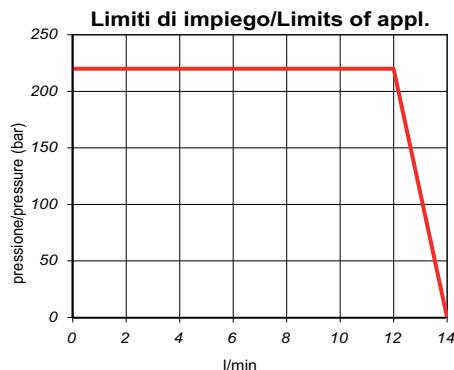

Valvola ad azionamento elettrico a 4 vie 2 posizioni a cursore diretto a cartuccia

A solenoid-operated, 4-way, 2-position, direct-acting, spool-type hydraulic cartridge valve

► COD. EV3/4 42F2

► GRANDEZZA / SIZE 06

• Cavità • Cavity	<b>C 3416- 4</b>
• Pressione max. • Max. Op. pressure	<b>220 bar</b>
• Portata Nominale • Nominal Range	<b>12 l/min</b>
• Trafilamento interno • Internal Leakage	<b>Max. 50 cm<sup>3</sup>/min a 210 bar con Oil 46 cSt</b>
• Comandi manuali • Manual controls	<b>EV3 - EV4 - EB1</b>
• Bobine • Coils	<b>Cap. 3</b>

## 4 VIE 2 POSIZIONI 4-WAY, 2-POSITION

Valvola ad azionamento elettrico a 4 vie 2 posizioni a cursore diretto a cartuccia

A solenoid-operated, 4-way, 2-position, direct-acting, spool-type hydraulic cartridge valve

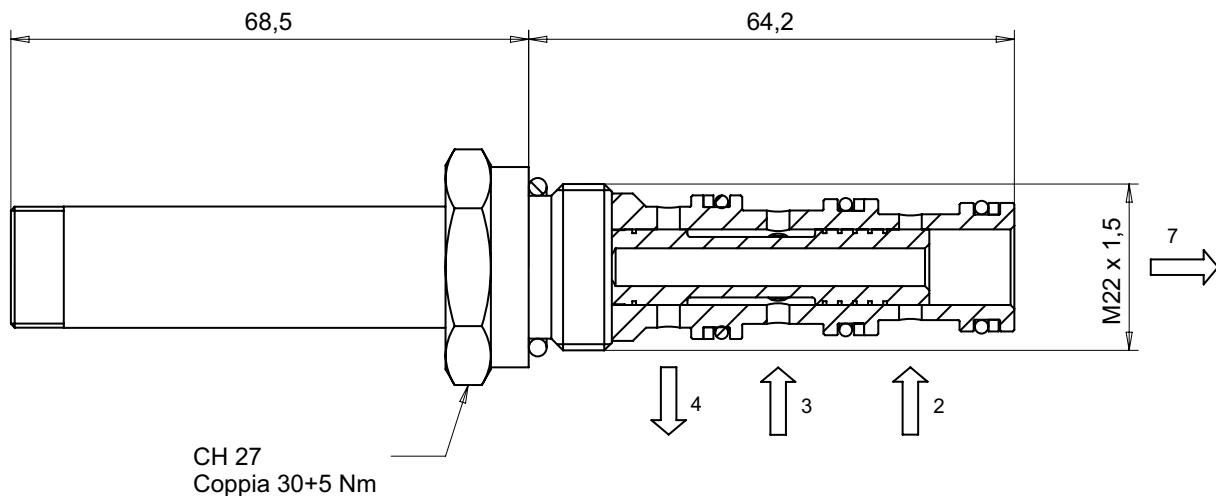

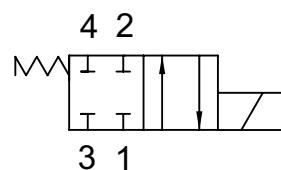

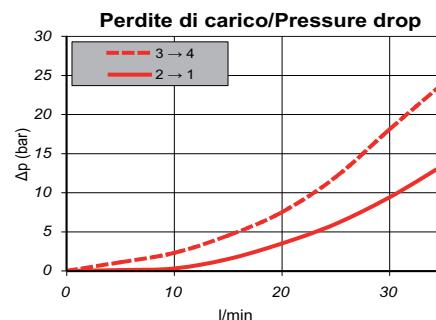

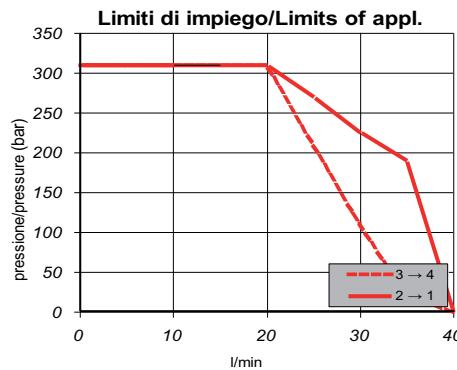

► COD. **EVM22 42F2**

► GRANDEZZA / SIZE **09**

**1**

**1.a**

• Cavità <i>Cavity</i>	<b>C 2215- 4</b>

## 4 VIE 3 POSIZIONI 4-WAY, 3-POSITION

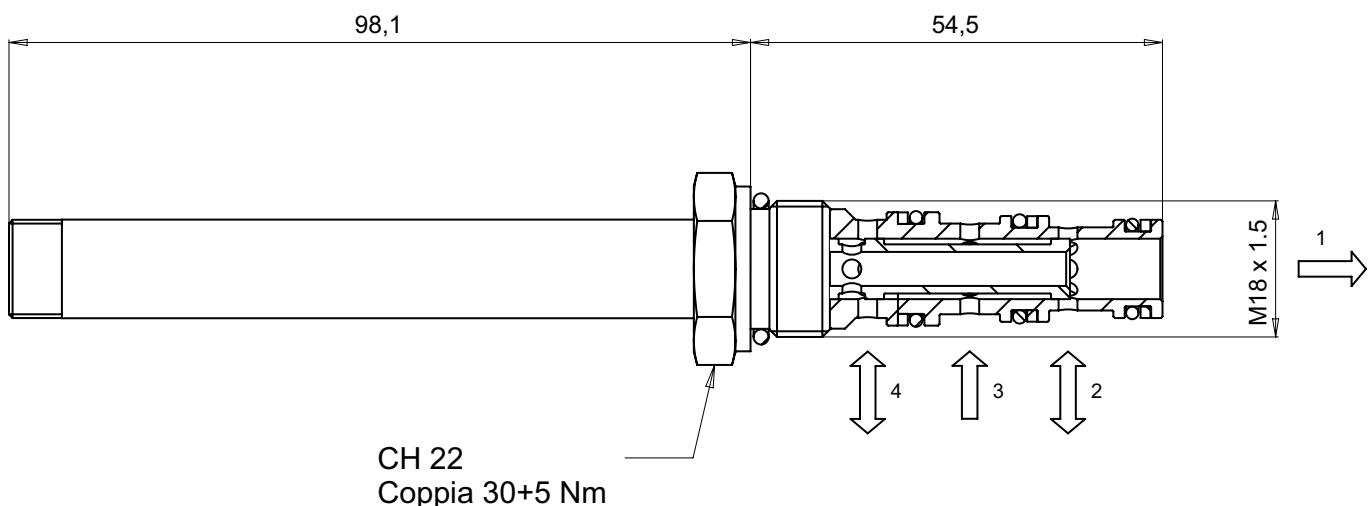

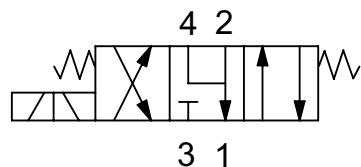

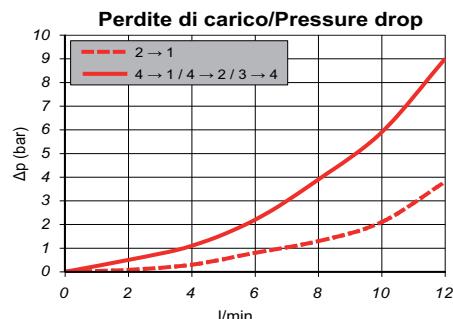

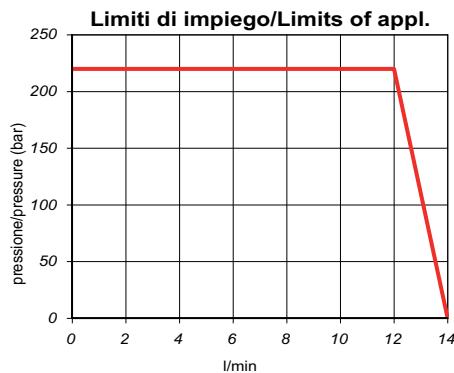

Valvola ad azionamento elettrico a 4 vie 3 posizioni a cursore diretto a cartuccia

A solenoid-operated, 4-way, 3-position, direct-acting, spool-type hydraulic cartridge valve

► COD. **EVM22 43G3**

► GRANDEZZA / SIZE **09**

• Cavità • Cavity	<b>C 2215- 4</b>
• Pressione max. • Max. Op. pressure	<b>220 bar</b>
• Portata Nominale • Nominal Range	<b>35 l/min</b>
• Trafilamento interno • Internal Leakage	<b>Max. 50 cm<sup>3</sup>/min a 210 bar con Oil 46 cSt</b>
• Comandi manuali • Manual controls	<b>EP2 - EP3 - EP4 - EB2</b>
• Bobine • Coils	<b>Cap. 3</b>

## 4 VIE 3 POSIZIONI 4-WAY, 3-POSITION

Valvola ad azionamento elettrico a 4 vie 3 posizioni a cursore diretto a cartuccia

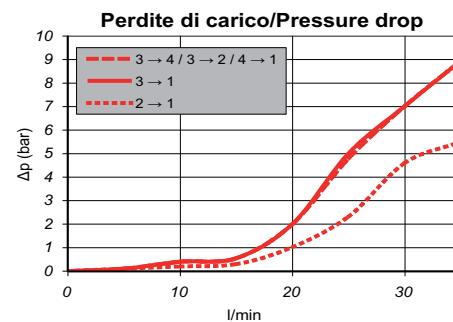

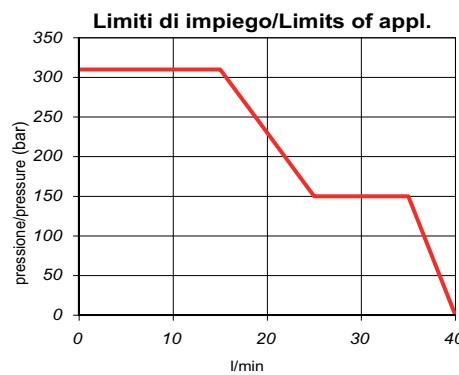

A solenoid-operated, 4-way, 3-position, direct-acting, spool-type hydraulic cartridge valve

► COD. EV7/8 43G3

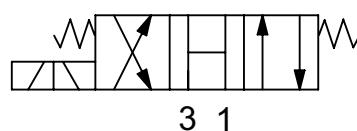

► GRANDEZZA / SIZE 09

1

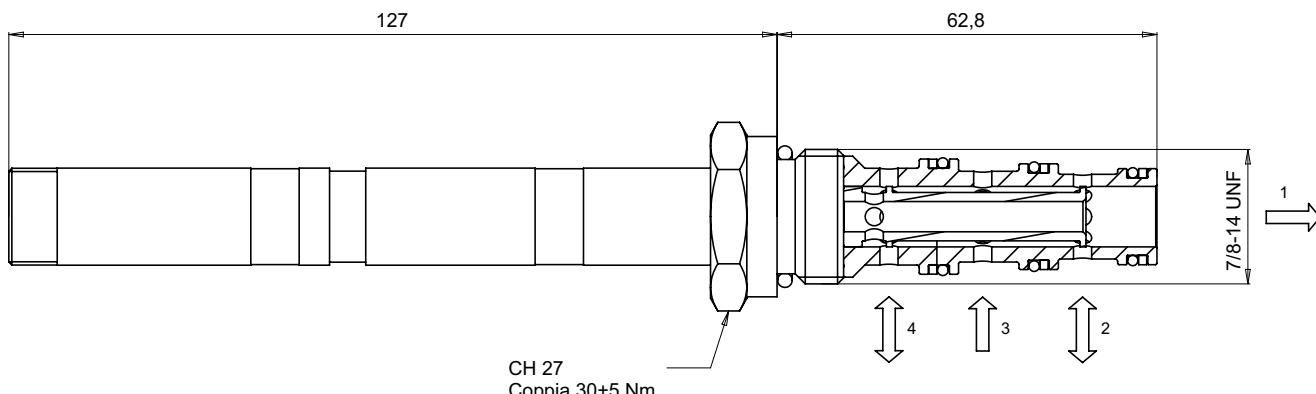

• Cavità Cavity	C 7814- 4
• Pressione max. Max. Op. pressure	220 bar
• Portata Nominale Nominal Range	35 l/min
• Trafilamento interno Internal Leakage	Max. 50 cm <sup>3</sup> /min a 210 bar con Oil 46 cSt
• Comandi manuali Manual controls	EP2 - EP3 - EP4 - EB2
• Bobine Coils	Cap. 3

4 2

3 1

## 4 VIE 3 POSIZIONI 4-WAY, 3-POSITION

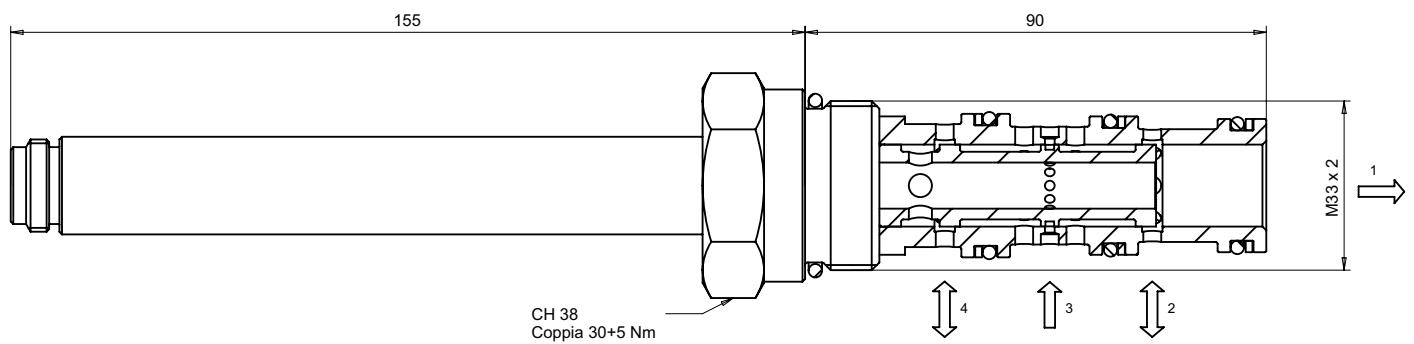

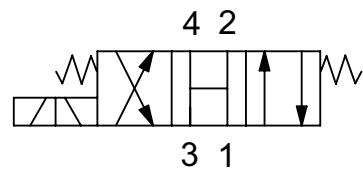

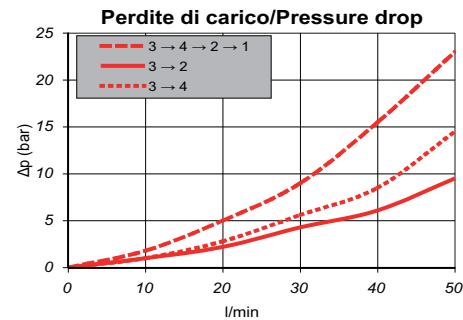

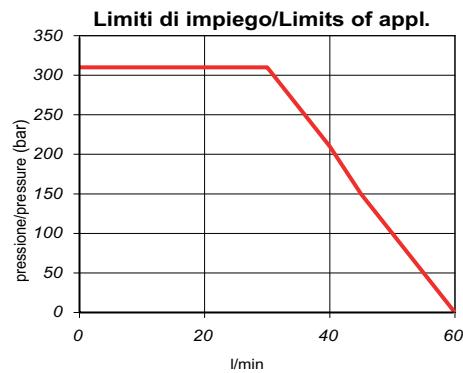

Valvola ad azionamento elettrico a 4 vie 3 posizioni a cursore diretto a cartuccia

A solenoid-operated, 4-way, 3-position, direct-acting, spool-type hydraulic cartridge valve

► COD. **EVM33 43G3**

► GRANDEZZA / SIZE **12**

• Cavità • Cavity	<b>C 332- 4</b>
• Pressione max. • Max. Op. pressure	<b>310 bar</b>
• Portata Nominale • Nominal Range	<b>50 l/min</b>
• Trafilamento interno • Internal Leakage	<b>Max. 50 cm<sup>3</sup>/min a 210 bar con Oil 46 cSt</b>
• Comandi manuali • Manual controls	<b>EV3 - EV4 - EB1</b>
• Bobine • Coils	<b>Cap. 3</b>

## 4 VIE 3 POSIZIONI 4-WAY, 3-POSITION

Valvola ad azionamento elettrico a 4 vie 3 posizioni a cursore diretto a cartuccia

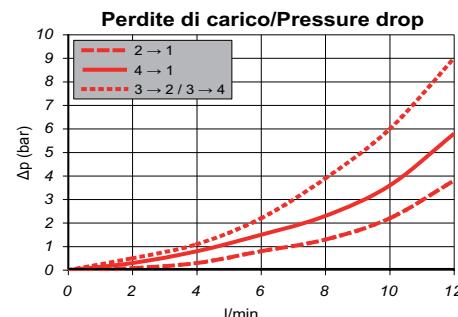

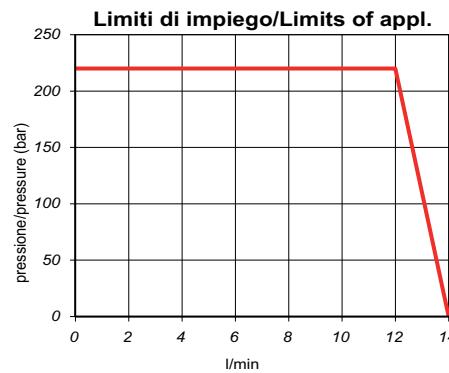

A solenoid-operated, 4-way, 3-position, direct-acting, spool-type hydraulic cartridge valve

► COD. EVM18 43G4

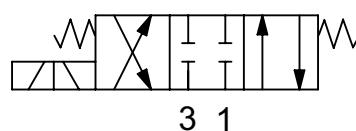

► GRANDEZZA / SIZE 06

1

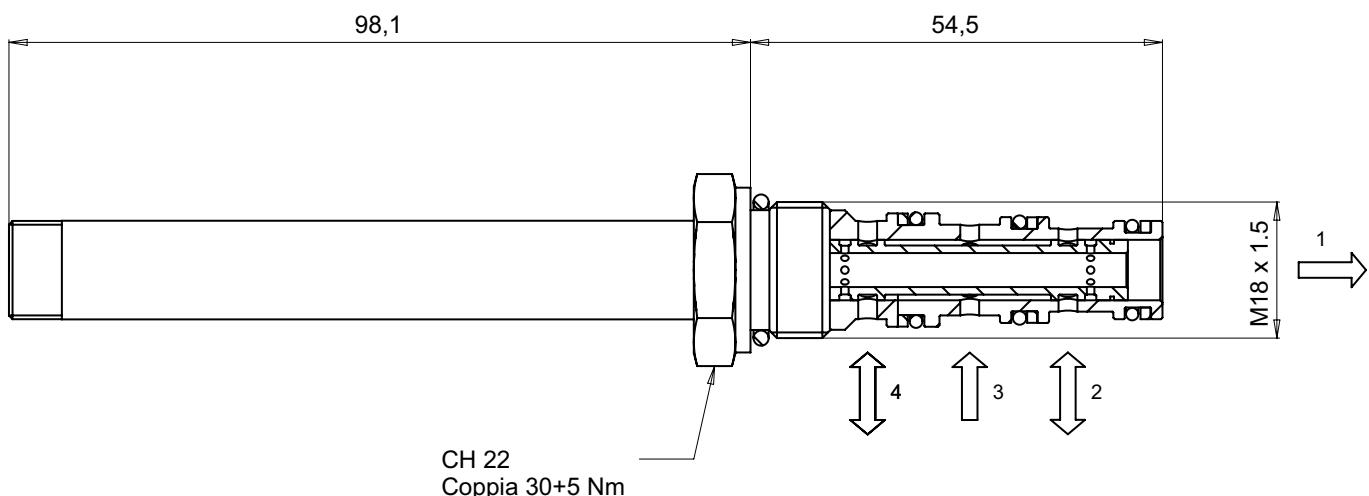

• Cavità Cavity	C 1815- 4
• Pressione max. Max. Op. pressure	220 bar
• Portata Nominale Nominal Range	12 l/min
• Trafilamento interno Internal Leakage	Max. 40 cm <sup>3</sup> /min a 210 bar con Oil 46 cSt
• Comandi manuali Manual controls	EP3 - EP4 - EV1 - EB2
• Bobine Coils	Cap. 3

4 2

3 1

## 4 VIE 3 POSIZIONI 4-WAY, 3-POSITION

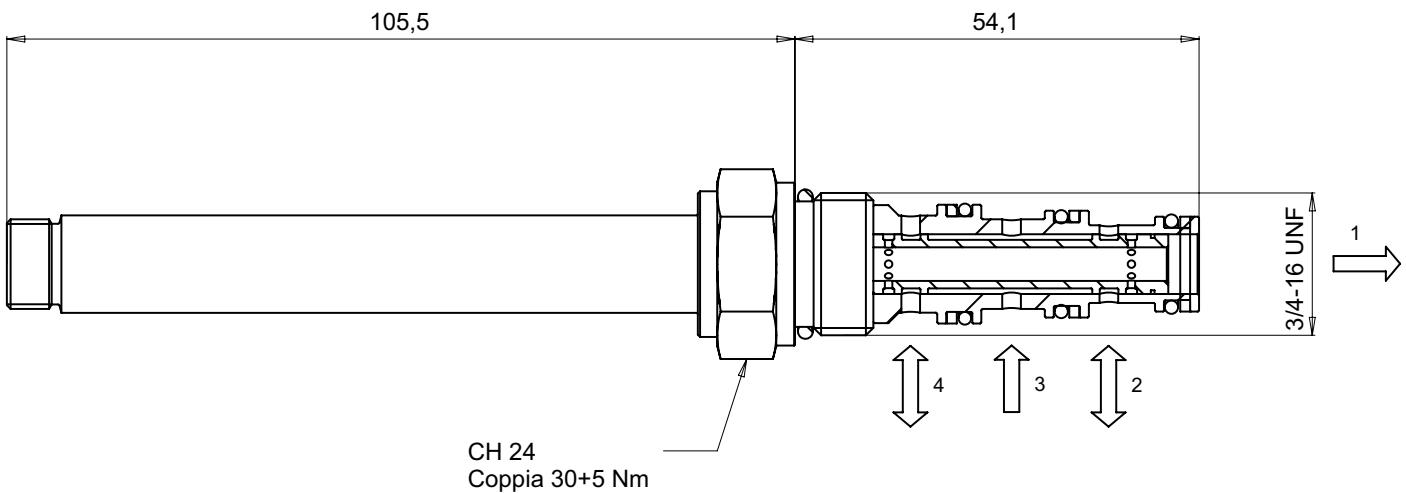

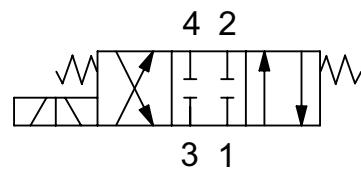

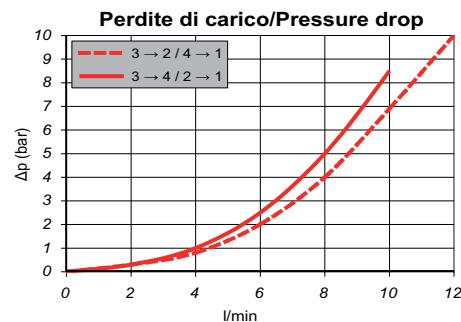

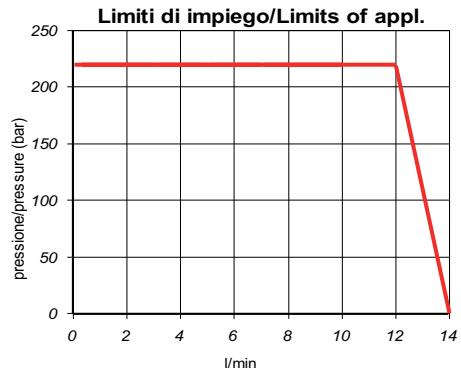

Valvola ad azionamento elettrico a 4 vie 3 posizioni a cursore diretto a cartuccia

A solenoid-operated, 4-way, 3-position, direct-acting, spool-type hydraulic cartridge valve

► COD. **EV3/4 43G4**

► GRANDEZZA / SIZE **06**

• Cavità • Cavity	<b>C 3416- 4</b>
• Pressione max. • Max. Op. pressure	<b>220 bar</b>
• Portata Nominale • Nominal Range	<b>12 l/min</b>
• Trafilamento interno • Internal Leakage	<b>Max. 40 cm<sup>3</sup>/min a 210 bar con Oil 46 cSt</b>
• Comandi manuali • Manual controls	<b>EP3 - EP4 - EV1 - EB2</b>
• Bobine • Coils	<b>Cap. 3</b>

## 4 VIE 3 POSIZIONI 4-WAY, 3-POSITION

Valvola ad azionamento elettrico a 4 vie 3 posizioni a cursore diretto a cartuccia

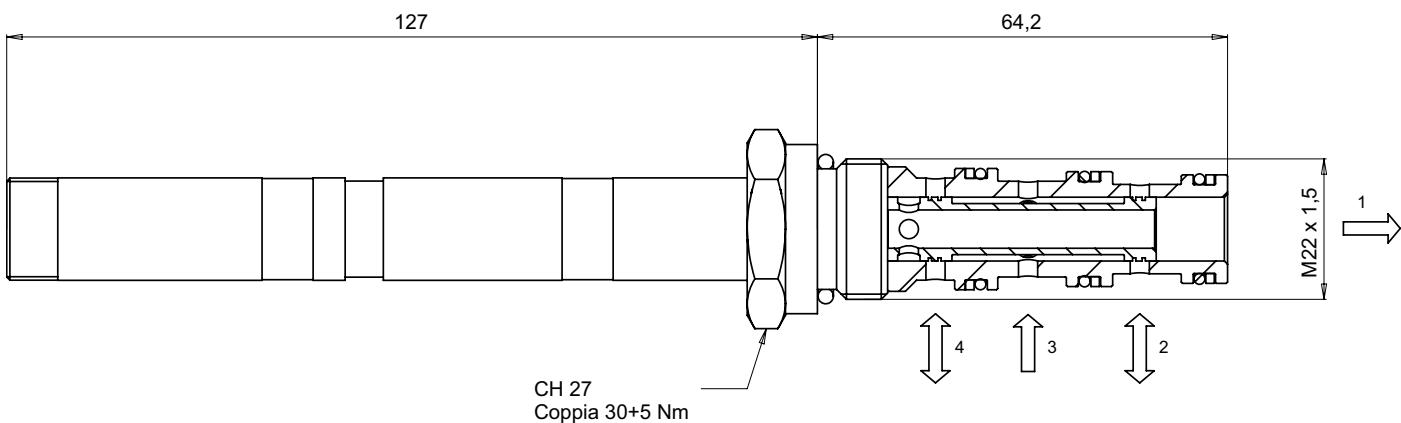

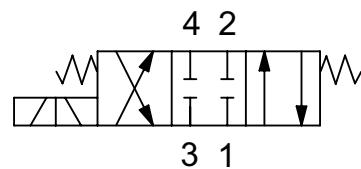

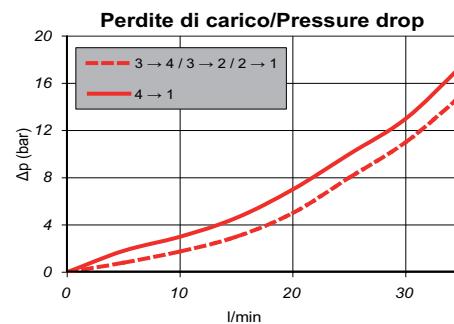

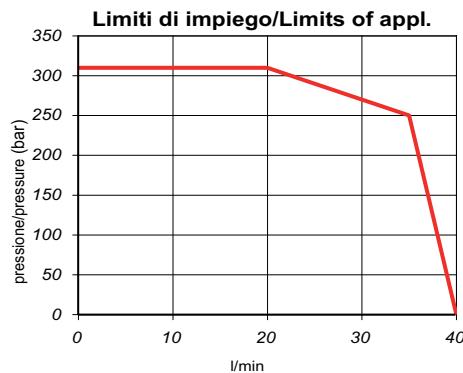

A solenoid-operated, 4-way, 3-position, direct-acting, spool-type hydraulic cartridge valve

► COD. EVM22 43G4

► GRANDEZZA / SIZE 09

1

• Cavità Cavity	<b>C 2215- 4</b>
• Pressione max. Max. Op. pressure	<b>220 bar</b>
• Portata Nominale Nominal Range	<b>35 l/min</b>
• Trafilamento interno Internal Leakage	<b>Max. 50 cm<sup>3</sup>/min a 210 bar con Oil 46 cSt</b>
• Comandi manuali Manual controls	<b>EP3 - EP4 - EV1 - EB2</b>
• Bobine Coils	<b>Cap. 3</b>

## 4 VIE 3 POSIZIONI 4-WAY, 3-POSITION

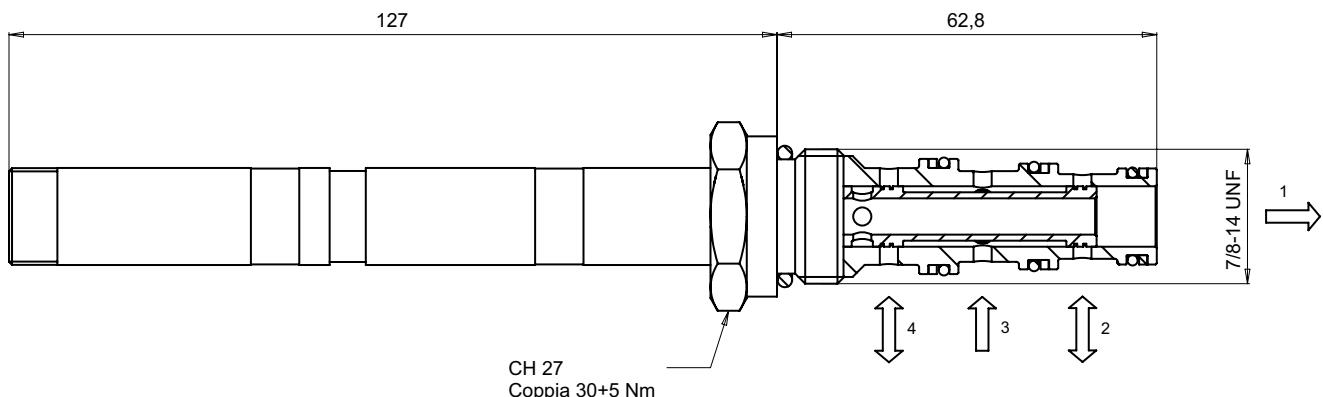

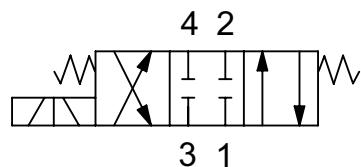

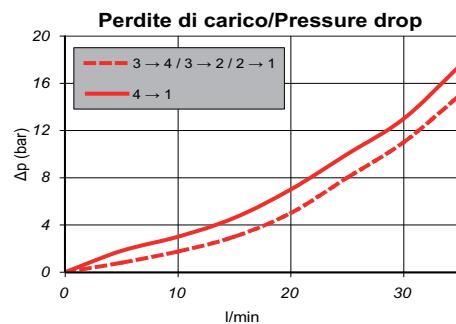

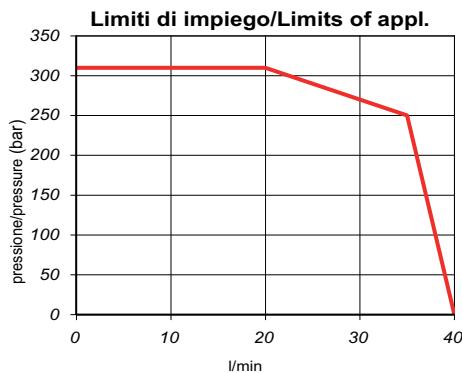

Valvola ad azionamento elettrico a 4 vie 3 posizioni a cursore diretto a cartuccia

A solenoid-operated, 4-way, 3-position, direct-acting, spool-type hydraulic cartridge valve

► COD. EV7/8 43G4

► GRANDEZZA / SIZE 09

• Cavità • Cavity	C 7814- 4
• Pressione max. • Max. Op. pressure	220 bar
• Portata Nominale • Nominal Range	35 l/min
• Trafilamento interno • Internal Leakage	Max. 50 cm <sup>3</sup> /min a 210 bar con Oil 46 cSt

• Guarnizioni / Seals :	Nitrile NBR Std. per temperature comprese tra -20 °C e +100 °C. A richiesta sono disponibili in Viton e in altre mescole  Nitrile NBR Std for temperatures between -20°C and +100°C. Upon request they are available in Viton and other compounds

**COME ORDINARE**  
**HOW TO ORDER**

Per ordinare i nostri prodotti è sufficiente comporre il codice nel seguente modo :

- Esempio di ordinazione di un'elettrovalvola proporzionale 7/8 - 14 UNF di massima pressione con bobina DIN 43650

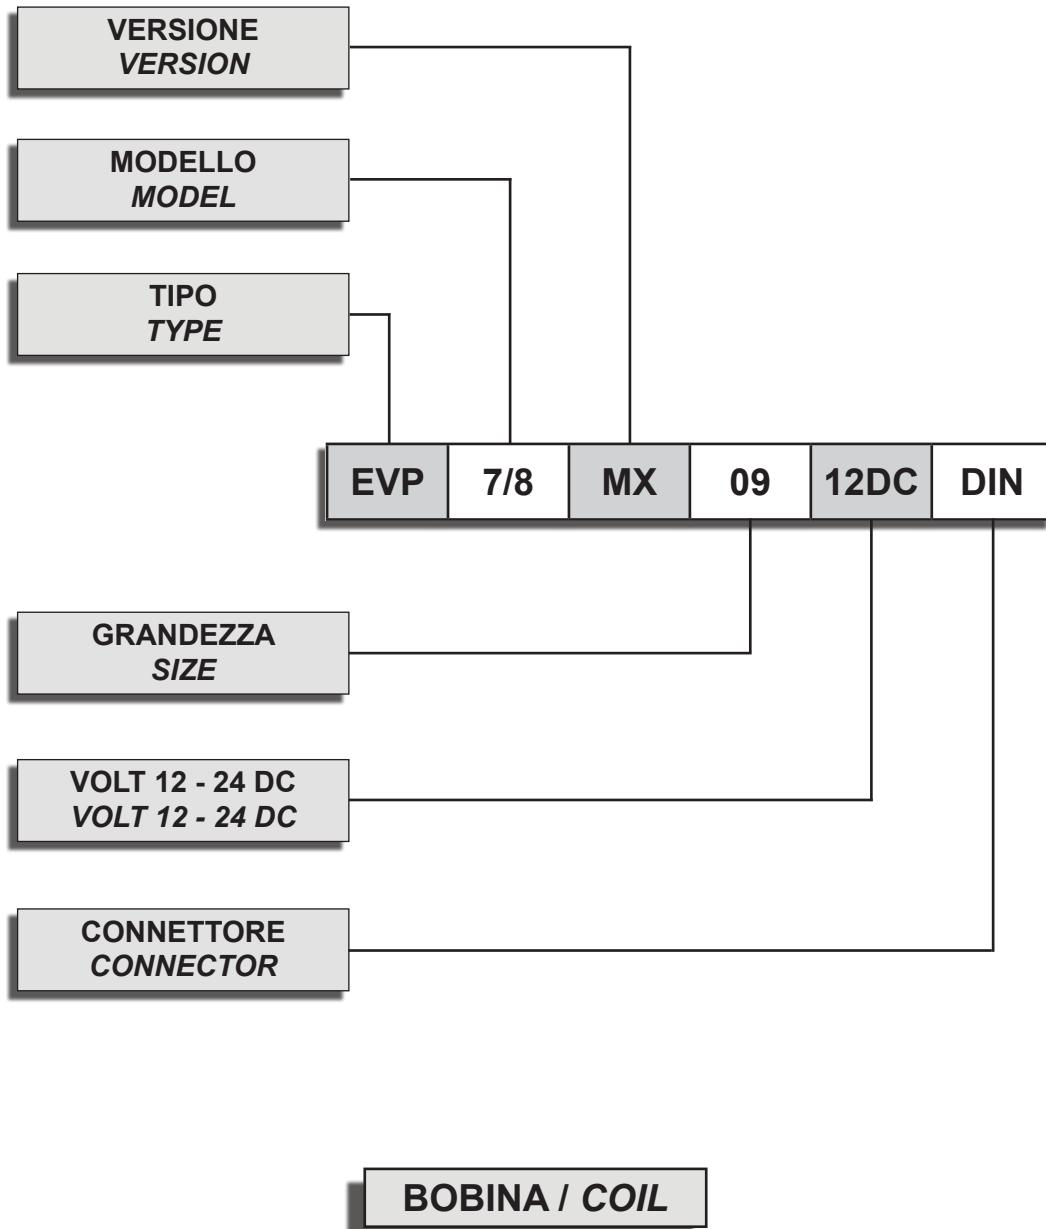

*To order our products it is sufficient to compose the code in the following way :*

- *Example of order of proportional, pilot-operated reducing/relieving valve with coil DIN 43650*

## VALVOLA DI MASSIMA PRESSIONE A CARTUCCIA

### CARTRIDGE RELIEF VALVE

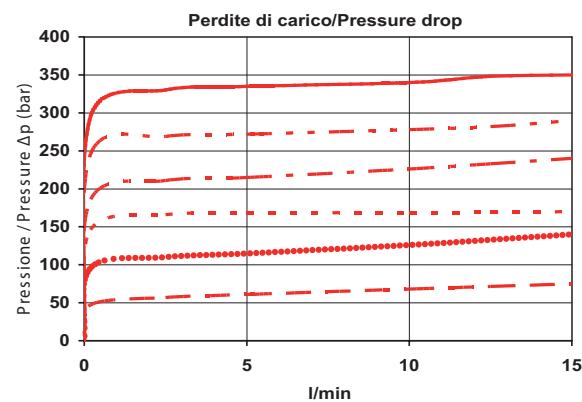

Sono utilizzate per limitare la pressione entro il valore desiderato e permettere lo scarico per quella in eccesso. Idonee per il montaggio in apposite cavità o l'utilizzo in blocchi integrati. La valvola è di tipo ad azione diretta

► COD. VMX

The relief valve provides overload protection in a fast and accurate way. It is used into integrated circuit or manifold block. This is a direct-acting type valve.

## VALVOLA PRIORITARIA COMPENSATA

### FLOW REGULATOR, PRESSURE COMPENSATED

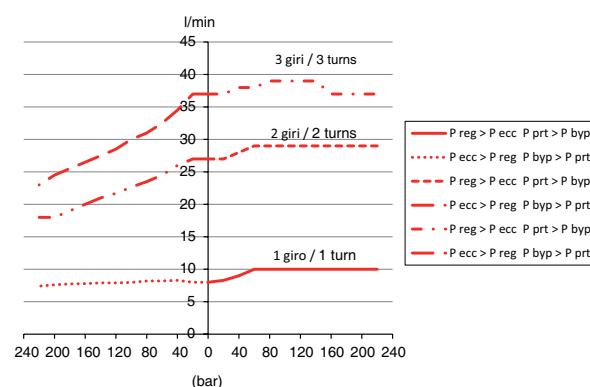

► COD. VPR R

Valvola prioritaria, regolabile manualmente, compensata che può funzionare anche come valvola regolatrice di flusso bloccando la porta 2

A screw-in, cartridge-style, adjustable orifice, pressure-compensated, manually operated, bypass-type hydraulic flow regulating valve. It can be used as a priority-type flow regulator or a restrictive-type 2-way flow regulator when the bypass port (port 2) is blocked

1

## VALVOLA REGOLATRICE DI FLUSSO UNIDIREZIONALE

### RESTRICTOR VALVE

Sono utilizzate per regolare la velocità di un attuatore in una direzione e permettere il ritorno libero in senso opposto con una regolazione sensibile. Sono idonee per essere utilizzate con il collettore o inserite in gruppi integrati

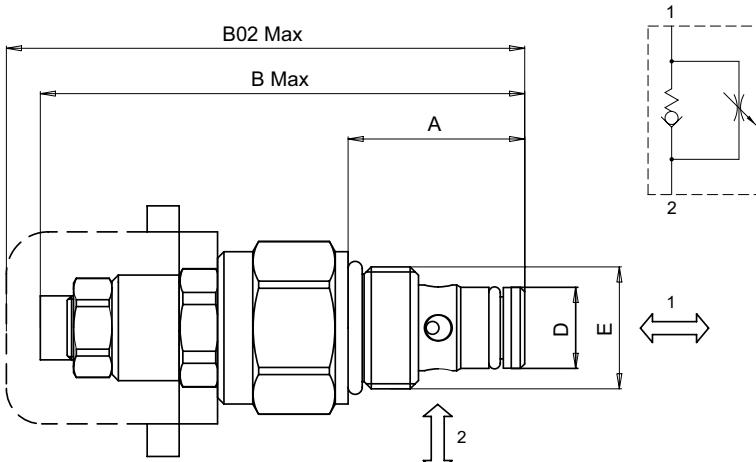

► COD. VRU

*This valve adjusts flow speed in one direction and allow the free return in the other one.  
It is used with manifold or into integrated circuit*

1

***BOBINE PER SERVIZIO CONTINUO***

*COILS FOR CONTINUOUS OPERATION*

**3**

<b>ISOLAMENTO TERMICO VDE 0580</b> <b>THERMINAL INSULATION VDE 0580</b>	Bobina completa con filo di rame smaltato CLASSE H 180°C	<i>Coil complete with enamelled copper wire CLASS H 180°C</i>
<b>TEMPERATURA STABILIZZATA</b> <b>STABILIZED TEMPERATURE</b>	La temperatura stabilizzata è di 120°C e si ha alimentando la bobina in ED 100 con una tensione superiore del 10% rispetto al valore nominale, ad una temperatura ambiente di 22°C e con una temperatura dell'olio di 50°C	<i>The stabilized temperature is of 120°C and is obtained by feeding the coil in ED 100% with a tension more than 10% as regard to the nominal value, at a room temperature of 22°C and an oil temperature of 50° C</i>
<b>TEMPERATURA MAX. DI LAVORO</b> <b>MAX. WORKING TEMPERATURE</b>	Le bobine non possono funzionare in servizio continuo se la temperatura di lavoro supera i 120°, si raccomanda perciò di non impedire il libero smaltimento del calore evitando di incapsulare le bobine in ambienti chiusi senza una adeguata areazione. La TEMPERATURA AMBIENTE deve essere di -30°C +50°C	<i>The coils cannot work in continuous operation if the work temperature exceeds the 120°C, therefore it is recommended not to prevent the free draining of heat, avoiding to encapsulate the coils in closed place without an adequate ventilation. The ROOM TEMPERATURE must be of -30°C + 50°C</i>
<b>TENSIONE DI ALIMENTAZIONE</b> <b>INLET VOLTAGE</b>	Le bobine sono progettate per funzionare in corrente continua. Il funzionamento con alimentazione in corrente alternata è possibile utilizzando un connettore radrizzatore. Per ottenere un corretto funzionamento ed una lunga durata di esercizio delle bobine è necessario che la variazione della tensione di alimentazione non sia superiore al +/-10 della tensione nominale	<i>Coils are projected to work in direct current. The working with feeding in alternate current is possible using a connector rectifier. In order to obtain a correct working and a long duration of the coils, it is necessary that the inlet voltage is not higher than +/-10% of the nominal tension</i>
<b>PROTEZIONE IP65</b> <b>CON CONNETTORE 43650 CORRETTAMENTE MONTATO</b>  <b>PROTECTION CLASS IP 65</b> <b>WITH 43650 CONNECTOR PERFECTLY EXECUTED</b>	Il grado di protezione è indicato con la lettera IP seguita da due cifre : la prima indica il grado di protezione contro la penetrazione di corpi solidi estranei, la seconda contro la penetrazione di liquidi. IP 65 significa protezione totale contro : POLVERE-ACQUA spruzzata in getti a bassa pressione. Le bobine possono entrare in contatto con un getto d'acqua ma non possono rimanere immerse in acqua. Questo tipo di protezione ha validità se il montaggio del connettore è eseguito a regola d'arte e la bobina non si trova in ambienti corrosivi e particolarmente umidi	<i>The protection degree is indicated by the letters IP followed by two numbers: the first shows the protection degree against the penetration of extraneous solid bodies, the second against the penetration of liquids. IP 65 means total protection against: DUST-WATER-sprayed in low-pressure jets. The coils can enter in contact with a water jet but cannot remain dipped in water. This kind of protection is valid if the assembly of the connector is perfectly executed and the coil is not placed in a corrosive and particularly humid place</i>
<b>INTERMITTENZA DI FUNZIONAMENTO</b> <b>ED 100% VDE 0580</b> <b>WORKING DUTY ED 100% VDE 0580</b>	E' il valore percentuale del tempo di inserzione rispetto al tempo completo di funzionamento. Tutte le bobine funzionano con ED 100% purchè non venga superato il valore limite di temperatura per la loro classe di isolamento	<i>It is the value ratio of the switching time in regard to the complete working time. All the coils work with ED 100% provided that they don't exceed the limit value of temperature values for their insulation class</i>
<b>TEMPO DI COMMUTAZIONE</b> <b>RECOVERY TIME</b>	In funzione delle pressioni ai singoli attacchi, della portata e della viscosità del fluido, i tempi di inserzione variano da 10 a 30 ms	<i>Depending on the pressures on the individual couplings, on flow and viscosity of the fluid, switching times change from 10 to 30 min</i>
